

CONSTRUCTION + INDUSTRIAL SUPPLY

Built for the work ahead.

Materials. Expertise. A practical approach to your project supply.

CONTRACTORS AMBASSADORS
TRADING COMPANY

RIYADH, SAUDI ARABIA / 2026

A PRACTICAL SUPPLY PARTNER

Connecting requirements to the right materials.

Contractors Ambassadors Trading Company (CATE Group) is a Riyadh-based trading business focused on construction and industrial supply. We help contractors, procurement teams and businesses bring their material requirements into one coordinated enquiry.

Our range spans building materials, steel, electrical, plumbing, tools, construction chemicals and safety equipment. We begin with the specification, review the sourcing requirements and agree the supply details with you.

01

Our mission

Support project procurement with suitable materials, clear communication and ethical business practices.

02

Our vision

Grow as a trusted trading and supply partner through dependable relationships and a diverse product range.

03

Our approach

Understand the specification. Coordinate the sourcing. Confirm the commercial and delivery details.

A BROAD RANGE. ONE CONVERSATION.

Materials across the project lifecycle.

Building & structural

Steel, core materials, timber and site essentials.

Electrical supplies

Cables, conduits, accessories and installation products.

Plumbing & water systems

Pipes, fittings, valves, drainage and water storage.

Tools & hardware

Hand tools, power tools, fixings and consumables.

Safety & site operations

PPE, workwear, protection and site requirements.

Chemicals & finishes

Construction chemicals, sealants, coatings and accessories.

FROM THE STRUCTURE TO THE FINISH

A considered range for demanding work.

Steel & metal products

Sections, beams, channels, flat bars, sheets, tubes and reinforcement requirements.

Core building materials

Cement, blocks, bricks, sand and aggregates for civil and building works.

Architectural & finishing supplies

Hardware, fixings, construction chemicals and materials for project finishing requirements.

Share the relevant grade, dimensions, quantities and applicable project specification so the quotation can be prepared against your requirement.

BUILT AROUND THE SPECIFICATION

MEP supply, coordinated.

Electrical & installation

- Power and control cable requirements
- Conduits, fittings and wiring accessories
- Installation hardware and consumables

Plumbing & water systems

- Pipes, fittings, valves and drainage
- Water storage and associated accessories
- Sanitary and project plumbing requirements

Tell us the sizes, standards, pressure ratings, brand preferences and installation requirements. Final models and specifications are confirmed in the written quotation.

EQUIP THE PEOPLE DOING THE WORK

Practical essentials. Professional requirements.

Power tools

Drilling, grinding, cutting and task-specific accessories.

Hand tools & hardware

Daily-use tools, fixings and workshop consumables.

Safety & PPE

Head, hand, body, foot and fall-protection requirements.

Construction chemicals

Sealants, coatings, adhesives and application accessories.

Brand and model references support product identification. Confirm product suitability, availability and any required technical documents with CATE before ordering.

RELATIONSHIPS THAT MATTER

Trusted partners.

We value relationships built on understanding the requirement, following through on the details and working together. Our supply conversations connect procurement, engineering and site teams around a clear material requirement.

FROM YOUR MATERIAL LIST TO YOUR QUOTATION

Let's work through the details.

01

Share your requirement

Send your BOQ, product references, quantities and specifications.

02

Review the supply

Confirm proposed materials, availability, lead times and commercial terms.

03

Coordinate delivery

Agree the delivery location, schedule and order details with our team.

YOUR NEXT PROJECT STARTS WITH A CONVERSATION.
